

TPHS MATH OPEN HOUSE
 — Torrey Pines High School parents, students and supporters recently attended a showcase of student projects from advanced math courses at TPHS, including Calculus C, Calculus D, Linear Algebra and the new Advanced Topics in Mathematics class. Students from each class shared work in a science fair format to represent their knowledge in various math topics. Students displayed their projects incorporating extensive use of mathematical programming technology, as well as applied mathematics in calculus and linear algebra. The event was held May 24 at the Torrey Pines High School gym.
